

Participant	Question Text
Peter Krass	Welcome! We'll be getting started at the top of the hour.
Perry Szarka	I have heard of dramatically increased core counts; true?
Jimmy Arcade	Good day, all!
Lisa Ferrante	
Louise Loh	Greeting!! :)
The Channel Company	Thank you for joining us today. As reminder, you should also be dialed into the audio bridge so you can hear today's presentation. The dial in is 303-248-0285 code 4714241. Your line will be muted but we encourage you to type any questions into the window during the presentation as you think of them or you can hold your questions to the end!
Perry Szarka	Can this be made full screen?
Peter Krass	No, but we will be making the slides available for download. I'll give the details and URL soon.
Thomas Deligiannis	Thanks, that would be great
The Channel Company	We will sending the audio recording out along with the final slides following the presentation!
Thomas Deligiannis	Are there any aignificant security advances over Skylake?
Suzanne Keith	what impact have these improvements had on the price point?
Peter Krass	Suzanne, prices for CPUs? Or complete systems?
Thomas Deligiannis	Suzanne, the prices are available online. It's a bit more than skylake
Perry Szarka	90%+ of processor time is spent moving data from place-to-place. Has anything been put in-package toward addressing this?
Suzanne Keith	I was wondering if we see the pricing impact on devices / systems - how that affects the end user and their decision making processes
Suzanne Keith	Just saw the comment about the pricing online. Thank you, I will take a look after
Peter Krass	ok, thanks for the clarification.
bob verplank	Do we get a copy of this at the end?
The Channel Company	Yes Bob, we will be sending out a copy of the slides and audio recording.
bob verplank	Thanks
Tony Stirk	Thanks for sending the slides. They were hard to read on my screen.
Suzanne Keith	in reference to gaming....schools are using gaming as an educational tool more and more...would you consider it best practice to recommend devices with 7th gen processors?
Kevin Karch	can i get a copy as well?
John Manno	please send me a copy as well
The Channel Company	Yes, all attendees today will receive a copy of the deck and recording!
Val Baur	Are the 7th Gen Processors still going to be one the LGA1151 and LGA2011-V3 sockets?

Val Baur	Is there a new chipset for them?
Perry Szarka	What about support for LINUX?
Suzanne Keith	do you know of specific applications that are used in education (besides gaming) that the 4K feature will enhance? for example, learning programs in architecture, math, science etc. ?
Perry Szarka	Do any PC manufacturers have "special" versions of the processors?
Diane Milholland	Maybe security video?
Peter Krass	http://www.businesscomputeforum.com/chat-transcripts
Jeff Poole	Thank you
Jimmy Arcade	Great! Thank you for the presentation and your time. Cheers!
Val Baur	Thanks
Norm Henderson	Thanks!
Craig Fogelstrom	thanks
Matt McKinney	Thank you!
John Manno	thanks
Suzanne Keith	thanks!
Perry Szarka	Thanks
Terry Cage	thank you :0
The Channel Company	You will also receive a follow up email from The Channel Company including the link to the recording and slides, thanks!
Bob VanCura	Thank you.
Peter Krass	Thanks, all, for joining us.
