OPTIMIZE THE DATA CENTER

With Intel® Server Boards, Systems, RAID products, Server Adapters and SSDs!

Give businesses the optimal Data Center solution featuring Intel® technology and benefit from one of the points offers below!

Buy 5, Get 2,500 Points
Purchase five qualifying* Data Center products to get 2,500 points.*

Buy 25, Get 10,000 Points
Purchase any combination of 10 Intel® Server and Intel® RAID products along with 15 other Data Center products to receive 10,000 points.*

Qualifying products

Intel® Server Products

Build the foundations of your data center with an Intel® Server System from the R1000RP, R1000WT and R2000WT family of products. Single or dual-socket Intel® Server Boards and Intel® Chassis from the P4000S Family.

Intel® RAID Products

Address the storage-related challenges of the modern day data center with Intel® RAID Products that offer exceptional performance and data protection that is thoroughly validated with Intel® Server Products to ensure that when teamed together everything "just works."

Intel® Solid State Drive Data Center Family

With unprecedented pressure to maximize performance and quality, reduce energy usage, and lower operating costs, our Intel® Solid State Drive Data Center Family holds the key with two product groups covering SATA and PCIe* NVMe™ SSDs.

Intel® 10 Gigabit Server Adapters

Solve the problem of increased bandwidth requirements as data centers move to highly virtualized platforms, with 10GbE Intel® Ethernet solutions.

Available now from distributors

This offer expires on March 31st.

See over for full list of qualifying SKUs.

*Purchases of qualifying SKUs must occur by March 31st of 2016. Limit one 2,500 point or one 10,000 point award per business. Businesses that qualify for both will receive 10,000 points.

Your solutions. Our technology. **Smarter together.**
