

Participant	Question Text
Babar Yasin	I am excited to learn more about Compute Stick. Along with Go Pro you should have given Compute Sticks too.
Herb Burt	Ha, I agree with Babar!
Lisa Ferrante	Looking forward to today's chat - thank you all for joining us - we will get started at the top of the hour!
Peter Krass	Welcome, early birds!
Peter Krass	As Lisa mentioned, we'll be getting started at the top of the hour...a little less than 20 minutes from now.
Lewis Martino	hi
Peter Krass	Welcome
Peter Krass	Please note that this live chat includes an audio portion. To listen to the chat, please dial our call-in number: 1-303-248-0285, followed by code: 471 4241.
Peter Krass	Your line will be muted, but you will be able to hear the guest speakers.
Aaron Patkos	Howdy all
Paul King	Hi
Peter Krass	Welcome! Thanks for joining us.
Gustavo Koldorff	Bonjour, Shalom, Hello, etc, etc
Brian Daniel	Hello
Peter Krass	Hi, all, we'll be getting started in about 3 minutes.
Peter Krass	If you haven't already, please be sure to dial in to hear the audio portion of this chat...
Lisa Ferrante	As a reminder, if you are not dialed into the audio portion, make sure you dial in at 303-248-0285 (code 4714241) so you can hear the presentation.
Peter Krass	please dial our call-in number: 1-303-248-0285, followed by this code: 471 4241
KEVIN GEML	HELLO
Peter Krass	Hi, and welcome
Ron Rhodes	I don't want to call some number!
Glen Miller	Good morning!
Scott Hinkle	I'll call in in a min..sorry on the phone
Peter Krass	OK, we're going to get started now
david byun	hi
Steven Carpenter	Good Morning!

Don Gibbens	Windows 10 update has killed compute stick - no supposed fix. I have to get this back to customer. Any Suggestions?
Greg Kwiatkowski	Are these widi enabled (for dual display?
Chuck Chen	Hi
Aaron Patkos	Thats nice
Robert Piazza	Ok, that's pretty awesome :)
William Felderman	Kewl
Herb Burt	Fantastic!!!!
Steven Carpenter	Is the only stick with I5 a Cider City?
Don Gibbens	will slide set be available?
Kuangyu Lu	what is max capacity of micro SD?
Lisa Ferrante	Yes, the slides will be available and will be sent out to all attendees following the chat.
Lisa Ferrante	I see a few questions coming in - we will address your questions shortly!
Herb Burt	What is the memory size limit of the SD card?
Steven Carpenter	What is the suggested Retail for all 3 sticks?
Gustavo Koldorff	How does application see this device? Is it a PC or laptop? The reason I ask is, some PC applications are mainly intended for laptop (mainly , OTT like Optimum App, etc)
Steven Carpenter	When will it be available with a built in 802. AC?
Silvia Middleton	Perhaps a bit off-the-wall question, but has this been tested for water protection? I can't tell you how many clients have washed USB flash drives because they forgot they were in their pockets. This could be an issue in travel as well.
Greg Kwiatkowski	Thank you.
Herb Burt	Ha, Ha Slivia, I just had a client do just that!
Silvia Middleton	I have a client who travels who could use this but is very hard on devices/
Herb Burt	What are the retail prices of all the models?
Marguerite Chan	When did this version get released?
Kuangyu Lu	Is there on device encryption for our thin client agents?
DJ Grieb	One of the USB ports has to be used for the wireless keyboard and mouse correct?
Glen Miller	Is there possibility for multiple OS, such as Chrome?
Scott Hinkle	I was just going to ask about alternate OS's.
Pat Gallagher	I have been unable to have the cell phone app stay up on the monitor ... I cannot connect my cell phone
William Felderman	Will this deck be available to download?
Lisa Ferrante	Yes the deck and audio will be sent out following the chat!

Jeffrey Lee	I5 on the stick?
Steven Carpenter	Thank You!
Jay Lucas	For travel purposes, is there a case available? Perhaps one that would also address the washing machine issue?
Jay Lucas	Is there a vetted OS list?
Steven Carpenter	When will the Cider City be available?
Jeffrey Lee	Has anyone created a rechargeable touch screen led display with a recessed slot for the stick. This would make the unit a tablet.
John Hennerberg	Is there a time limit on how long the Compute Stick can be without power?
Don Gibbens	I have a Windows 8.1 unit upgraded to win 10. Can I do a clean install do over with win 10 and bypass the upgrade?
Robert Piazza	What about remote desktop/ssh/etc into the stick for controlling it?
Steven Carpenter	Thank You!
Robert Piazza	I'm assuming it'd be like any other 'machine'?
Robert Piazza	Thanks, that's what I thought :)
Paul King	We would like to use these with CNC and 3d printers. Does anyone know what the latency of the unit be for peocessing a file
Kuangyu Lu	Thanks for the answers
KEVIN GEML	Great Stuff!!!
Howard Lee	gracias
Robert Piazza	The new model is still only able to use a 32G miniSD?
Don Gibbens	Please do more of this type of call! Awesome!!!
Silvia Middleton	Looks exciting. /great format, too.
Robert Piazza	Thank you all, great presentation!!
KEVIN GEML	ty
Karen Jolicoeur	Thank you.
Jay Lucas	Re, the multi-monitor setup. Any reason that a dock attached to on of the USB3.0 ports would not support additional monitors?
Jeff Brassord	Thanks.
Herb Burt	Thanks You!
Pat Gallagher	thanks
Steven Carpenter	Great Info!
Aaron Patkos	thanks a ton
Herb Burt	I am anxious to try the Compute Stick

Scott Hinkle	Thanks
Paul King	Thank you
Aaron Patkos	who got the prizes?
Lewis Martino	thanks
Robert Piazza	I'm wondering the same thing, Aaron...
Peter Krass	Thanks, everyone, for joining today's live chat. While you're here, take a look at Business Compute Forum, if you haven't already.
Steven Carpenter	Looking forward to testing Cedar City M5
Lisa Ferrante	We will be doing a random drawing for the go pro + 3 Compute Sticks and notify the winners within the next week!
Aaron Patkos	Awesome
Robert Piazza	Thanks for that info, Lisa :)
Peter Krass	<a href="http://www.businesscomputeforum.com/">http://www.businesscomputeforum.com/</a>
