Dell Wins Product of the Year Recognition in Data Center

CRN PRODUCTS OF THE YEAR 2014

PowerEdge R730 Tackles Almost Any Workload

Dell PowerEdge R730 earned accolades from CRN for Product of the Year 2014 in the Data Center category. This is a significant win for Dell and can prove to be a real boost for you in the marketplace.

The incredible versatility of the PowerEdge R730 server delivers outstanding functionality in just 2U of rack space. With the combination of powerful processors, large memory, fast storage options and GPU accelerator support, the R730 performs exceptionally well in a number of demanding environments.

The popular-sized 2S/2U R730 can be easily configured as a reliable, general-purpose server for business-critical applications, with scale-out storage, automated management and high-availability features, such as:

- Redundant power supply units (PSUs)
- Hot-plug and swappable PSUs, HDDs and fans
- Dual SD card option for fail-safe hypervisors

Windows Server 2012 R2 installed on PowerEdge R730 improves performance, and helps to more efficiently scale workload capacity and enable robust recovery options to protect against outages. Windows Server 2012 R2 enables a wide range of cost-effective, high-performance storage options and simplifies delivery of multitenant IT services. Build, deploy, operate and monitor applications on-premises and in the cloud.

Latitude 12 Rugged Extreme Captures CRN's Tech Innovators Award

The Latitude 12 Rugged Extreme is the first ruggedized device of its kind to feature a flip-hinge display that seamlessly switches between notebook and tablet. It also sports the new Direct-View outdoor-readable display, providing outdoor readability with less power consumption. There's a customizable water-resistant RGB backlit keyboard, and the unit features the new rugged pogo-pin docking interface, which is more durable and rugged than traditional docking interfaces. We pushed Latitude 12 Rugged Extreme to the edge and beyond with a rigorous "test-to-fail" methodology during development, and achieved third-party certifications to meet military standard (MIL-STD) requirements.

Windows 8 Pro on the Latitude 12 Rugged Extreme gives your customers more of what their business needs. Features, including an improved Start screen, better OneDrive integration and device sync functionality across all Windows PCs and tablets, enhance the user experience. Devices and data are more secure with features like Trusted Boot—antimalware software that helps to prevent viruses and malware at start-up.
