Trade-in your servers, get cash back!

Accelerated year end server buy back program

How does it work?

Get your customer fair market value plus \$400 for every server traded in with an Intel branded ProLiant server purchase.

From any manufacturer, including HPE!

What do I do?

Request a quote, refresh your customers aged infrastructure, send in old equipment and your customer receives cash back for the trade in. HPE will cover shipping, handling and recycling costs.

The details

- Qualified trade-in servers include any server from HPE or any other manufacturer.
- Qualified trade-in servers must be replaced by new HPE ProLiant Gen8 and Gen9 servers.
- 1-to-1 trade to new server ratio is required, program maximums apply. See official terms and conditions for details at **www.hpe.com/us/prolianttradein**
