

Always changing. Never compromising.

Make your business look good with HP® and the Intel® Core™ i5 vPro™ processor.

Work doesn't always adapt to your style. So we designed an HP EliteBook, powered by Intel, that does. Our ultra-thin, full-performance Windows® 8 Ultrabook transforms into a tablet, so you can choose what works best in any situation. Durable and reliable. Enterprise-class through and through. It's a whole new twist on getting more done.

Choose from solid-state drive options up to 256 MB with Intel® Rapid Start Technology, and be ready in as fast as 5 milliseconds.

Optimized for Windows 8®, giving you the intuitive touch experience you expect. And with a keyboard or optional pen, you have the tools you need to get the job done.*

We've included technologies to help keep your HP EliteBook Revolve protected from the ground up: HP BIOS Protection, HP Client Security and an embedded TPM security chip, to name a few.
