

I AM GOING TO WAIT,
TOUCH IS NOT RELEVANT
TO BUSINESS YET.

Touch is driving digital experience. Today's top applications and software are being designed for touch computing. This new input technology built into Lenovo's touch-optimized PCs and tablets allows you to take full advantage of revolutionary software including Windows* 8. Waiting will only put you behind.

ME AND MY CUSTOMERS
ARE FINE WITH WINDOWS XP.

Upgrade your OS with the right PC. In less than a year, Microsoft will no longer provide support for Windows* XP users. Upgrading to Lenovo's Windows 8 touch-optimized devices will help ensure the infrastructure and growth of your company. Keep your business safe, secure, and mighty successful.

WHICH SHOULD I BUY:
LAPTOPS OR TABLETS?

Today, you don't have to compromise. Lenovo has a range of Windows 8 touch-optimized laptops, convertibles, and tablets that offer the power of 3rd generation Intel® Core™ processors. With tablets offering maximum mobility, productivity, and reliability, Lenovo is a top choice for business.

ThinkPad® Helix
from Lenovo

ThinkPad® Tablet 2

HOW DO I SUPPORT THE
"BRING YOUR OWN DEVICE"
TREND IN MY BUSINESS?

Be ready and agile. Lenovo can enable a business to allow employees to access the corporate environment on any device they choose without compromising security. With Lenovo Windows 8 touch-optimized devices, remote users can safely access resources and the latest software updates inside the corporate network from anywhere.
