

TRANSFORM YOUR BUSINESS

Replacing your old desktop towers with new Mini PCs powered by Intel® can promote employee productivity, lower IT and power costs, and revitalize employee workspaces.¹ Take the upgrade journey and see what your business could gain along the way.

Legacy desktop tower

Yesterday's workspace

Upgrade to blazing fast

Encourage productivity with faster systems that provide more than double the performance.

Save at the outlet

Power costs add up. Efficient Mini PCs powered by Intel can use less than half the power.

Connect in more ways

Upgrade data speeds and connections with USB 3.0, Wireless-AC, and DisplayPort.

Unclutter workspaces

Make room for more important things with smaller systems and realize big space savings for your business.

Simplify management and save

Support desktops remotely, even when they are off, reducing downtime and cutting repair costs to pennies on the dollar.

Reclaim time

Get back over 22 hours a year per employee thanks to improved performance. That's more than two and half work days a year.
