- * Workflow Automation
- * BackUp & Monitoring
- * Enterprise Mobile
- * Mobile Applications
- * Cloud Management

DNAMIC

www.godnamic.com

We are a creative technology company, but beyond that we are people you really want to work with! At DNAMIC we pride ourselves on being technologists with passion for creative user experiences and a very strong human focus. We are experienced in delivering mobile and web solutions or digital production services to world-class marketing agencies such as DigitasLBi, Droga5, MRY among others, and high technology companies all around the globe. It has allowed us to leverage all the knowledge we have gathered over time and translate it into the benefits you will receive partnering up with DNAMIC: being able to scale, build great products, exceed your client expectations and reduce costs at the same time!

Eaton

www.switchon.eaton.com

Eaton is dedicated to ensuring that reliable, efficient and safe power is available when it's needed most. With unparalleled knowledge of electrical power management across industries, Eaton delivers customized, integrated solutions to solve our customers' most critical power challenges. Our focus is on delivering the right solution for the application.

eMag Solutions

www.emagsolutions.com

For over four decades, eMag Solutions has been a pioneer in data, media, and information management. We specialize in ensuring that you can access all of your data for your IT needs, we reduce the cost and risk associated with growing data populations, and we eliminate the fear of the unknown by identifying and categorizing your dark data. With our custom-built tools, our engineers will scan, catalog, restore, and extract your data from any type of media (tapes, hard drives, servers, workstations, data domain devices, local or any type of cloud storage, content manager, or any back-up solutions) and convert and/or migrate your data to any type of desired format. Partner with eMag to create the environment for innovation and transformation - and be empowered to make informed decisions, gain the competitive intelligence you need to drive revenue, and maximize your ROI.

Essential Costa Rica

The Export Promotion Agency of Costa Rica & Essential Costa Rica present a group of IT Providers.

DNAMIC www.dnamicworld.com Mobility & web development services, online marketing, interface design and database programming.

E-TRUST

www.e-Trustsecurity.com

E-TRUST is a Cybersecurity company that provides Single Sign-On, Identity Management & Access control, on premise and in the cloud. E-TRUST delivers top Cybersecurity services at budget friendly pricing.

EXSIS Software & Solutions

www.exsis.co

We were founded in 1994 as an IT service provider specialized in solutions for the insurance and banking industries. Exsis backs up companies on their digital transformation, crafting custom solutions that meet the needs of the U.S. market. We are certified ISO 2700, ISO 9001 and CMMI.

FireEye, Inc.

www.fireeye.com

FireEye has invented a purpose-built, virtual machine-based security platform that provides real-time threat protection to enterprises and governments worldwide against the next generation of cyber attacks. These highly sophisticated cyber attacks easily circumvent traditional signature-based defenses, such as next-generation firewalls, IPS, anti-virus, and gateways. The FireEye Threat Prevention Platform provides real-time, dynamic threat protection without the use of signatures to protect an organization across the primary threat vectors and across the different stages of an attack life cycle. The core of the FireEye platform is a virtual execution engine, complemented by dynamic threat intelligence, to identify and block cyber attacks in real time. FireEye has over 5,000 customers across 67 countries, including more than 940 of the Forbes Global 2000.

Fortinet

www.fortinet.com

Fortinet protects the most valuable assets of some of the largest enterprise, service provider and government organizations across the globe. The company's fast, secure and global cyber security solutions provide broad, high-performance protection against dynamic security threats while simplifying the IT infrastructure. They are strengthened by the industry's highest level of threat research, intelligence and analytics. Unlike pure-play network security providers, Fortinet can solve organizations' most important security challenges, whether in networked, application or mobile environments - be it virtualized/cloud or physical. More than 210,000 customers worldwide trust Fortinet to protect their brands.

Gartner

www.gartner.com

Gartner, Inc. (NYSE: IT) is the world's leading information technology research and advisory company. Gartner delivers the technology-related insight necessary for its clients to make the right decisions, every day. From CIOs and senior information technology (IT) leaders in corporations and government agencies, to business leaders in high-tech and telecom enterprises and professional services firms, to supply chain professionals, digital marketing professionals and technology investors, Gartner is the valuable partner to clients in more than 10,000 distinct enterprises.

Tightly integrated and highly supported services include email, unified communications, file backup and sharing, productivity, identity and access management, security, archiving, and more.

Intertec

www.intertecintl.com

Intertec International is an IT Services company founded in 2002 with headquarters in Phoenix, Arizona with offices in Atlanta, GA, Charlotte, NC and San Francisco, CA. We provide IT Managed Services from our nearshore technology center in San Jose, Costa Rica and throughout the United States. With 15+ years of experience in the IT industry, we have a proven track record of working with companies to solve their complex technical problems through customized solutions. We work with companies across various industries including, but not limited to, Financial Services, Insurance, Technology and Direct Marketing. Our service offerings include Software Engineering, Project and Program Management, Business Analysis, Test Engineering and Quality Assurance, and Infrastructure Management.

iT1

www.it1.com

iT1 is a global Information Technology Experience Provider, founded in 2003 and headquartered in Tempe, Arizona. With nearly 14 years in business, our expertise is centered around a core group of competencies that include Virtualization, Data Storage and Management, Networking and Connectivity, Collaboration and Unified Communications, Professional and Managed Services, and our new Cloud Services group, iT1 Connect.

iT1 Connect's engineers and consultants have years of experience determining right platform – on-premise, managed private, or multi-tenant cloud – for any given application, workload, or environment. Trust our team to look at the whole picture, and to give you accurate, unbiased information about the suitability of your applications for deployment in the cloud.

Kaspersky Lab

www.kaspersky.com

Kaspersky Lab is a global cybersecurity company founded in 1997. Kaspersky Lab's deep threat intelligence and security expertise is constantly transforming into security solutions and services to protect businesses, critical infrastructure, governments and consumers around the globe. The company's comprehensive security portfolio includes leading endpoint protection and a number of specialized security solutions and services to fight sophisticated and evolving digital threats. Over 400 million users are protected by Kaspersky Lab technologies and we help 270,000 corporate clients protect what matters most to them.

KMC Controls

www.kmccontrols.com

KMC Controls is an IoT and building automation solutions company, specializing in designing, engineering, and manufacturing these solutions in the United States. With nearly 50 years of experience in the operational technology (OT) sector, KMC has brought this expertise to the IT space, bridging the gap between the two worlds. With KMC Commander, an open, secure and scalable IoT platform, KMC has attracted the support and partnerships of tech giants, like Intel and Dell, and used that support to evangelize the benefits and tangibility of IoT across multiple industry verticals.

Konics

We help customers to gain more vision about IT opportunities and to take better decisions regarding IT challenges with a unique IT Monitoring Service (IT infrastructure, User Experience and APM) and an exclusive Backup/Restore and DR Management Service.

Koombea

www.koombea.com

Koombea is an omni-channel digital design and development company. We specialize in enterprise application development and web and mobile design and development.

Level 3 Communications

www.level3.com

Communications builds, operates and maintains a global communications network to deliver managed solutions for enterprises, carriers and governments. We take ownership of network reliability and security across our portfolio of fiber-based infrastructure, data center, voice and data, Ethernet, content distribution, security, and cloud-based solutions.

LogRhythm

www.logrhythm.com

LogRhythm, a leader in security intelligence and analytics, empowers organizations around the globe to rapidly detect, respond to and neutralize damaging cyber threats. The company's award-winning platform unifies next-generation SIEM, log management, network and endpoint forensics and advanced security analytics. In addition to protecting customers from the risks associated with cyber threats, LogRhythm provides innovative compliance automation and assurance, and enhanced IT intelligence.

Mimecast

www.mimecast.com

Mimecast (NASDAQ: MIME) makes business email and data safer for 19,900 customers and millions of users worldwide. Founded in 2003, the company's next-generation cloud-based security, archiving and continuity services protect email and deliver comprehensive email risk management.

NativApps

www.nativapps.com

NativApps is a BPO software development and digital products company based in Barranquilla, Colombia. With 14+ years of experience in a wide range of technology and programming languages, we offer innovative solutions in mobile, web and software development, helping organizations to enter the digital world while providing their customers and users a great experience through information systems and technological tools. Focused on the demands of an international era and passionate about excellence, our team of 90+ people manage a variety of languages, putting great emphasis on the design of highly reliable and effective products for our customers, using the latest and most innovative technologies in the industry.

Netreo

www.netreo.com

OmniCenter is a monitoring, alerting, and reporting appliance (physical or virtual) which provides cost-effective and easy-to-deploy application, network, and systems management. It provides a unified single view into virtually all IT components, from end-user application experience to device-level performance and capacity planning. Our appliance-based architecture simplifies deployment, with all hardware and software pre-integrated. Several appliance options are available to suit any size environment or redundancy requirement, including clustering, hot-standby, and distributed data collection with centralized reporting and administration.

Nutanix

www.nutanix.com

Nutanix makes infrastructure invisible, elevating IT to focus on the applications and services that power their business. The Nutanix Enterprise Cloud Platform blends web-scale engineering and consumer-grade design to natively converge server, storage, virtualization and networking into a resilient, software-defined solution with rich machine intelligence. This results in predictable performance, cloud consumption models, robust security, and seamless application mobility for all enterprise applications at any scale.

Optiv

www.optiv.com

Orcase-Vector

www.vectoritgroup.com

IT solutions, business & IT Consulting services, Architecture, Application Management, Infrastructure Management and BPO services.

EX2 Outcoding

Sapiens

www.sapiensdev.com

Converting business ideas into great software

SAS

www.sas.com

No matter the size of your business, SAS can help you get big business value from your data. With SAS®, you can explore your data to understand what it means, run analytics in minutes, and deliver results where and when you need. Our open analytics platform means everything works together, so you can plan better, work smarter and act faster. You'll also benefit from our ongoing support, extensive partner network, and excellent education and training programs. As the leader in business analytics software and services, SAS transforms your data into insights that give you a fresh perspective on your business. Use SAS software to identify what's working, fix what isn't and discover new opportunities. Let's work together to see how analytics can help your business make the best decisions possible.

Scale Computing

www.scalecomputing.com

Scale Computing integrates storage, servers, and virtualization software into an all-in-one appliance. The integrated system is scalable, self-healing, and as easy to manage as a single server. Using industry-standard components, the HC3 appliances install in under an hour, and can be expanded and upgraded with no downtime. High availability insulates the user from any disk or server failures, and a unified management capability (driven by the patented HyperCore Software) efficiently integrates all functionality. The result is a data center solution that reduces operational complexity, allows a faster response to business issues, and dramatically reduces costs.

ScienceLogic

www.sciencelogic.com

ScienceLogic is the global leader in hybrid IT service assurance. Over 25,000 global service providers, enterprises, and government organizations rely on ScienceLogic to significantly enhance IT efficiency, optimize operations, and ensure business continuity. ScienceLogic is the first monitoring solution to provide a comprehensive view of all IT components through a single pane of glass, whether they reside in a public cloud environment or on-premises. With over 1,500 dynamic management apps and custom dashboarding capabilities, we deliver the scale, resiliency, and automation needed to simplify the constantly evolving task of managing IT resources, services, and applications.

SHI

www.shi.com

Constantly growing in response to the needs of our customers in all sectors and verticals, SHI has transformed itself from a \$1 million "software-only" regional reseller into a \$7.5 billion global provider of information technology products and services. From software and hardware procurement to deployment planning, configuration, data center optimization, IT asset management and cloud computing, SHI offers custom IT solutions for every aspect of your environment. SHI's goal is to foster long-term and mutually-beneficial relationships with our customers and partners, every single day.

The expertise, dedication and commitment to excellence of each member of your SHI account team (and the support organization that backs them) have made SHI into the industry-leading, complete IT solution provider we are today.

ShoreTel

www.shoretel.com

ShoreTel, Inc. is a leading provider of brilliantly simple IP phone systems and unified communications solutions powering today's always-on workforce. Its flexible communications solutions for on-premises, cloud and hybrid environments eliminate complexity, reduce costs and improve productivity. Recognized for its industry-leading customer experience and support, ShoreTel's innovative business phones, application integration, collaboration tools, mobility, and contact center applications enable users to communicate and collaborate no matter the time, place or device, with minimal demand on IT resources. ShoreTel is headquartered in Sunnyvale, Calif., and has regional offices and partners worldwide

SilverPeak

www.silverpeak.com

Silver Peak is the global leader in Broadband and Hybrid WAN solutions. Geographically distributed enterprises view the cloud and wide area network as critical to connecting users to applications. Strategic IT leaders are under pressure to balance the complexities of managing legacy infrastructure while accelerating the migration to the cloud which can compromise their effectiveness. Silver Peak offers a complete range of best-in-class hardware, software and cloud-based SD-WAN solutions that provide secure and reliable virtual overlays to connect users to applications with the flexibility to use any combination of underlying transport without compromising application performance. This results in greater business agility and lower costs.

SiteGround

www.siteground.com

SiteGround specialises in managed web hosting solutions since 2004. With 5 data centers on 3 continents and more than 500,000 domains on our platform, we are one of the leading hosting providers, internationally recognised for our unique approach to web hosting technology and services. We do things most hosting companies wouldn't even consider possible with a focus on every customer's specific business case. Whether you need a high-traffic instance configuration, public or private cloud or a geographically-dispersed cluster architecture - we build enterprise hosting solutions tailored to your needs.

StorageCraft

www.storagecraft.com

StorageCraft Acquires Exablox, Revolutionizing Data Management. The StorageCraft family of companies, founded in 2003, provides award-winning backup, disaster recovery, system migration and data protection solutions for servers, desktops and laptops in addition to powerful data analytics. StorageCraft delivers software products that reduce downtime, improve security and stability for systems and data, and lower the total cost of ownership. Exablox is the company reimagining storage. Exablox solves businesses' runaway storage costs and information management nightmares by providing a cloud-managed, scale-out, object-based solution that is affordable and easy to use.

Tech Professionals

www.techprofessionals.com

Tech Professionals is a software development and IT work for hire provider with more than 17 year experience in the industry. We offer high quality software solutions and IT on premise services for midsize, large and multinational companies based in Costa Rica.
