

Top Three Benefits of All-Flash Arrays

Put your business into overdrive

All-flash arrays deliver faster, more predictable performance than legacy systems, are simpler to operate, and provide greater IT flexibility. Discover how these benefits translate into business results.

1. Simplicity

Eliminate tedious performance tuning and free-up time for strategic projects.

- 48% savings in time and money for IT admin.¹
- 16% reduction in maintenance costs¹
- Average payback period less than 6 months¹

2. Flexibility

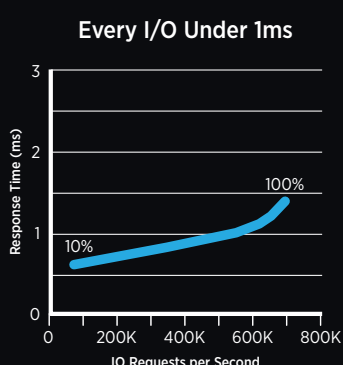

Move your data to where it delivers the most value.

- Optimize data placement across flash, disk and cloud
- Combine SAN and NAS on a single, consolidated infrastructure
- Scale performance and capacity without disrupting operations

3. Performance

Eliminate performance bottlenecks.

- Sustained sub-second latency performance for all your data
- Reclaim time spent waiting on applications
- Accelerate customer-facing applications and improve the digital experience

Discover how your applications can benefit from NetApp all-flash storage arrays.
