Maybe it's time to consider trading up. Get more than a mailbox with Hosted Exchange.

Improve your organization's productivity and lower your IT costs with Microsoft® Hosted Exchange enterprise-class messaging and collaboration. Easily manage email, contacts, calendars, and more:

- Access your email anywhere, anytime on a mobile device, Mac, PC, or web browser
- Avoid security concerns; enterprise-grade spam and virus protection is included
- Enhance team collaboration through shared calendars and scheduling
- Administer your service through our Web-based control panel or the optional Active Directory Sync add-on
- Comply with government regulations and corporate policies using optional encryption and archiving

Microsoft®
Exchange Server 2010

Benefits

Budget-friendly subscription model means predictable monthly costs per user, with no capital expenditures for hardware or software

Easily scalable to fit your business requirements; add or remove mailboxes as needed

MegaPath manages the hardware and software, lowering your overall IT costs and complexity

Get more for your money with MegaPath Hosted Exchange.

MegaPath delivers one of the highest-value Hosted Exchange services available today. That's because we back it with:

- Industry-leading uptime guarantee: Our **100% Availability SLA** means your email will work, or you'll get credit toward your next invoice
- **24/7/365 technical support** *always* included, and *always* US-based
- **60-day Satisfaction Guarantee;** try it without risk
- **Free migration tool**

What's included

This professional, enterprise-class productivity solution includes full email and collaboration feature sets—shared contacts, calendars, notes, tasks, global contact list, distribution lists, aliases, and more.

- 25GB Mailbox includes:
  - Pooled storage – share and reallocate mailbox storage as needed
  - Disaster recovery − Daily backups and up to 30 days of deleted data recovery
- Data sovereignty − Your Exchange data will *always* be stored in our US data centers—never overseas
- Free migration wizard to help you move your email
- Self-service portal for administering users and managing your service
- Premium virus and spam protection
- ActiveSync − Mobile email synchronization for iPhone®, iPad®, Android®, Windows® Mobile, and BlackBerry® devices
- Outlook Web Access − Browser-based email client
- Company Disclaimer – Includes a standard company disclaimer or other message in outgoing email messages
- Public Folders − Share files with other people using the same computer and with people using other computers on the same network

Features

- World-class security and reliability
- Full protocol support (RPC/MAPI, POP, IMAP)—all controllable on a per-user basis
- Disaster-ready: In case of server failure, automatic failover to a backup cluster happens in real-time; data backs up nightly to geographically redundant data centers
- Supported devices include PC or Mac®, Web browsers, or popular mobile devices and tablets
- Delivered via geographically dispersed SSAE-16 (Tier IV) certified data centers

Available Add-ons

- Archiving − retain and quickly search email archives for regulatory compliance or other reasons
- Policy-Based Email Encryption − automatically encrypt specific emails based on company-defined policies
- Active Directory Sync − Integrates your Hosted Exchange with your local Active Directory, simplifying user management
