Automating rule-based tasks through software robots with a purely web-based, cloud-native, RPA-as-a-Service platform for all users of the modern digital enterprise.
ENTERPRISE A2019: AUTOMATION MADE BRILLIANT

Architected from the ground up to deliver a web-based user experience, Enterprise A2019—the latest release of Automation Anywhere’s flagship intelligent Digital Workforce platform—offers businesses a choice between on-prem or cloud deployments. The platform provides RPA-as-a-Service as a turnkey automation solution for businesses of all sizes.

Enterprise A2019 provides a highly intuitive, instant-on user experience for all users—from the tech savvy business user and specialist RPA developer to the IT manager responsible for enterprise-wide RPA deployment and adoption.

In addition to on-prem deployment, Enterprise A2019 offers private, public, and hybrid cloud deployment. Near-infinite scalability enables the Digital Workforce to adapt as your automations—and business—grows.

Enterprise A2019 is infused with Artificial Intelligence capabilities throughout. Now, any user can drag and drop desired AI skills to incorporate intelligence into each and every area of their process automation.

**ESSENTIAL FEATURES**
- **WEB-BASED INTERFACE:** Highly intuitive user experience on any device anywhere.
- **IN-PRODUCT LEARNING:** The built-in introductory tour and step-by-step tutorials allow users to build bots quickly with minimal training.
- **EASY CUSTOMIZATION:** Pluggable architecture allows for personalization of system, providing even greater flexibility and extensibility.
- **UNIVERSAL RECORDER:** Single recorder captures and automates processes instantly.

**ADVANCED FEATURES**
- **INLINE SCRIPTING:** Add Python, VBScript, and other code to create more sophisticated bots.
- **INFUSE BOTS WITH AI, ML, NLP, AND MORE:** Create intelligent bots with plug-in AI packages.
- **EXTENSIBLE COMMANDS:** Grow your RPA toolset with a virtually limitless number of application commands such as Microsoft Office, G Suite, and more.
- **POWERFUL BOT CODE MANAGEMENT:** Single step through debugging, version control, merge code across versions.

ENTERPRISE A2019 GIVES YOU FREEDOM

Choose your device, your browser, your OS, and make Enterprise A2019 work for you.
ONE PLATFORM FOR ALL USERS

Enterprise A2019 is the cornerstone of the intelligent Digital Workforce. It is designed to meet the needs of end-users at every level of the organization, across all industries. No matter the business function—business, IT, or developers—Enterprise A2019 makes building and executing automations better and faster than ever for everyone.

BUSINESS USER/CITIZEN DEVELOPER
Requirements: Ease of use; task-based automations; collaboration
The Solution: Enterprise A2019 helps automate tasks with only a few clicks using a highly intuitive, browser-based, visual interface.

RPA SPECIALIST DEVELOPER
Requirements: Power tools; end-to-end automations; in-line scripting; collaboration
The Solution: Enterprise A2019 offers a powerful development environment, facilitates seamless collaboration with business users, and provides powerful tools.

IT/RPA MANAGER
Requirements: Security; scalability; lower TCO
The Solution: Enterprise A2019 has enterprise-class security. Scale effortlessly with its zero-footprint, cloud-native, low-maintenance design while lowering TCO.

THE ENTERPRISE A2019 WORKBENCH

The workbench is a brand-new, web-based user interface designed to improve bot-building—no matter the complexity.
