

CRN Cloud Partner PROGRAM GUIDE

There's No Better Time to Partner with Oracle

Leverage the unmatched power of Oracle Cloud.

Partner with Oracle and you'll have access to the industry's broadest and most integrated full-stack cloud portfolio. Oracle Cloud delivers best-in-class SaaS, PaaS and IaaS solutions with the versatility of three deployment model options—in the Oracle cloud, Oracle Cloud at Customer or on-premises.

With Oracle, the future is autonomous. And it's already here.

Oracle's next-generation technologies deliver self-driving, self-securing and self-repairing capabilities in Data Management; Analytics & Big Data; Security and Management; Application and Data Integration; Application Development; and Mobile and Bots. With the built-in power of artificial intelligence (AI) and machine learning (ML), help your customers lower costs, reduce risks, accelerate innovation and get predictive insights with Oracle Autonomous Cloud.

Opportunities for every partner business model.

Oracle PartnerNetwork is an innovative, award-winning program designed to help our partners deliver customer success. No matter your go-to-market strategy, you can tap into new opportunities to develop, implement, manage or sell Oracle's best-in-class technology.
