## BY THE NUMBERS

Game-changing Ease-of-use.  
Optimized Efficiencies.  
Improved Profitability.

ShadowXafe's unparalleled ease-of-use and performance reduce risk and downtime costs resulting in higher Service Desk profitability

Check Out the Stats. The Numbers Don't Lie.

### 1. EASE-OF-USE

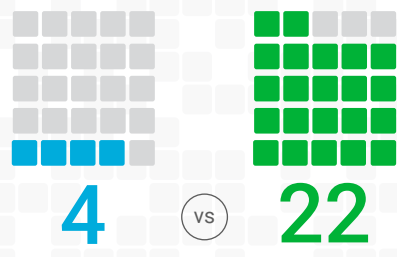

Reduce Risk For Greater Confidence.

#### Law of Simplicity

The simplest way to achieve simplicity is through thoughtful reduction.

ShadowXafe Brings Unprecedented Management Simplicity.

Number of clicks to Instant Recovery with ShadowXafe versus the competition.

LESS = MORE

LESS clicks = LESS decisions = LESS risk

Every click is a decision. Every decision is a risk-taking judgement. This is your opportunity to reduce the risk.

### 2. SPEED

Deploy and Recover Quickly. Keep Costs Down.

The competition costs **\$5,600**

MORE per minute in downtime.\*

\*According to Gartner

**16 milliseconds**

The time it takes for Instant Recovery with ShadowXafe. The competition lags at **2:18 minutes** (costing over **\$11,200 more** in downtime costs).

ShadowXafe's patented **Virtual Boot**

technology allows the recovery of customer data instantly each and every time.

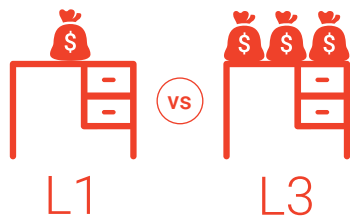

### 3. IMPROVE PRODUCTIVITY

Empower Your L1 Service Desk Engineer.  
Enable L3 Expertise To Shift Focus To More Profitable Services.

Overchoiced?

Fact: The more choices presented, the longer it takes to reach a decision.

Empower a Level 1 (L1) engineer to quickly deploy services and easily manage sophisticated requirements.

Avoid choice paralysis. Make confident decisions faster.

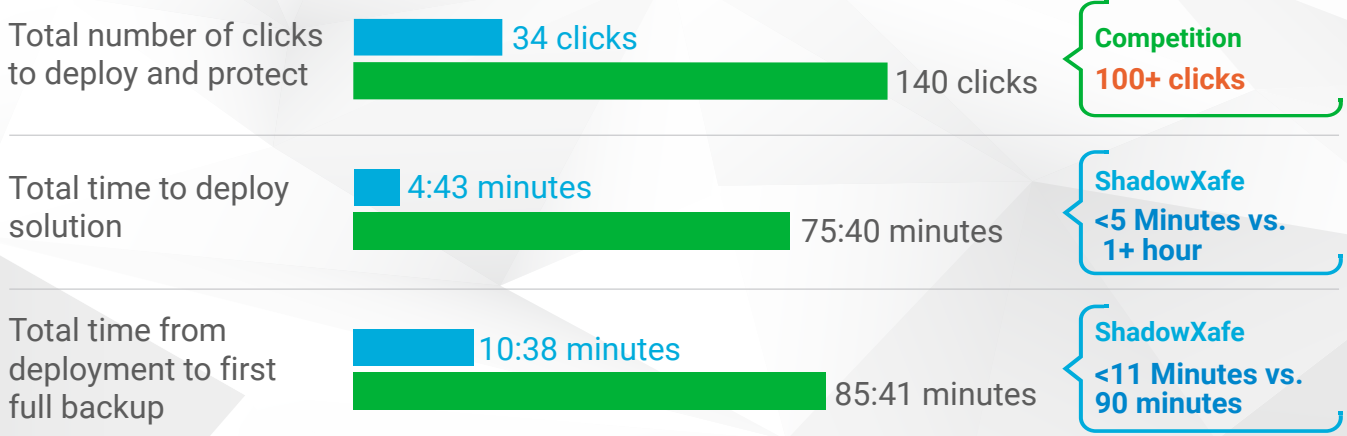

Less is more.
