

The Problem We Solve

Digital transformation has led to an explosion of new technologies, connected devices and computing platforms. From IT to Cloud to IoT to OT, this complex computing landscape is the modern cyber attack surface. The tools and processes of yesterday are being used to solve today's problems – built and designed for the old era of IT when the cyber attack surface was a static laptop, desktop or on-premises server. As a result, organizations struggle at every step – seeing their assets, detecting weaknesses, prioritizing issues for remediation, measuring risk, and comparing to peers – preventing them from confidently managing and reducing cyber risk. The digital era requires a new approach.

We are the first and only provider of Cyber Exposure solutions. We work with more than 30,000 organizations around the world to help them manage and measure cybersecurity risk in the digital era. We are building on our deep technology expertise as a pioneer in the vulnerability assessment and management market, providing broad visibility across the modern attack surface and deep insights to help security teams, executives and boards of directors prioritize and measure Cyber Exposure.

QUICK FACTS

FOUNDED 2002

HEADQUARTERS

- Columbia, MD, U.S.
- International headquarters in Dublin, Ireland
- Presence in over 20 countries

MARKET REACH

- More than 30,000 customers
- More than 50 percent of the Fortune 500
- More than 30 percent of the Global 2000

LEADERSHIP

Amit Yoran, Chairman and CEO

Renaud Deraison, CTO and Co-Founder

Steve Vintz, Chief Financial Officer

Dave Feringa, Senior Vice President, Worldwide Sales

Mark Thurmond, Chief Operating Officer

Michela Stribling, Chief Communications Officer

Ofer Ben-David, Chief Product Officer

Stephen Riddick, General Counsel

Bridgett Paradise, Chief People Officer

Robert Huber, Chief Security Officer

Brad Pollard, Chief Information Officer

Matt Olton, Senior Vice President of Corporate Development and Strategy

Melton Littlepage, Senior Vice President of Marketing

The Tenable Cyber Exposure Platform

The Tenable Cyber Exposure platform is the industry's first solution to holistically assess, manage and measure cyber risk across the modern attack surface. The Tenable platform uniquely provides the breadth of visibility into cyber risk across IT, Cloud, IoT and OT environments and the depth of analytics to measure and communicate cyber risk in business terms to make better strategic decisions.

The Tenable platform includes:

The #1 vulnerability assessment solution. The industry's most accurate, comprehensive and widely adopted solution for point-in-time vulnerability assessments. Built for security practitioners, by security practitioners.

Accurately identify, investigate and prioritize vulnerabilities. Two flexible deployment options for managing vulnerabilities in modern organizations: Tenable.sc (managed On-Prem) and Tenable.io (managed in the Cloud).

Tenable.ot, powered by Indegy, protects industrial networks from cyber threats, malicious insiders and human error.

Measure Cyber Exposure and benchmark against peers. Transform vulnerability data into meaningful business insights based on cyber risk.

ABOUT TENABLE

Tenable[®], Inc. is the Cyber Exposure company. Over 30,000 organizations around the globe rely on Tenable to understand and reduce cyber risk. As the creator of Nessus[®], Tenable extended its expertise in vulnerabilities to deliver the world's first platform to see and secure any digital asset on any computing platform. Tenable customers include more than 50 percent of the Fortune 500, more than 30 percent of the Global 2000 and large government agencies. Learn more at tenable.com
