Internet and Data Services

Internet Service

Comcast Business Internet provides a reliable and scalable solution, helping you to better connect with employees, customers and suppliers. Backed by the nation's largest gig-speed network, it offers download speeds up to 1 Gbps and upload speeds up to 35 Mbps.

Ethernet Service

Comcast Business Ethernet delivers fast, scalable connectivity that helps you adapt to changing business needs. Bypass the public Internet and exchange data at up to 100 Gbps.

Comcast Business Ethernet Dedicated Internet (EDI) Service is a more flexible option to traditional private line dedicated Internet access services, providing high bandwidth. When bundled with DDoS Mitigation Service, Managed Router Service and a Stateful Firewall, you'll have a complete Ethernet Solution that can flex with your needs and help protect your business from cyberthreats.

ActiveCoreSM SDN Platform

Comcast Business ActiveCore is a fully orchestrated, carrier-grade software-defined platform for a centralized network. It's the foundation that enables the evolution of your technology infrastructure into a virtual, centrally driven, flexible network. Activate and manage your network resources from a single screen for a complete network view, enabling more efficient updates.

Comcast Business SD-WAN

Be ready for whatever's ahead with **SD-WAN** from Comcast Business. See latency, packet loss, jitter, and the status of each site in real time. Troubleshoot potential network issues – all from your desktop portal or mobile device.

Advanced WiFi Solutions

With **Comcast Business WiFi Pro**, you have two networks (one private, one for guests). Advanced features like customizable splash pages help drive business and identify trends.

Comcast Business Cloud Solutions^{SM*}

Our online marketplace of cloud-based applications is designed to help boost your business's productivity. All are accessible through a single web portal for fast downloads and simple subscription management.

Automatic Backup

If your Internet connection is lost, **Comcast Business Connection Pro** allows your devices to continue running. Even in a power outage, stay connected for up to 8 hours with 4G LTE wireless Internet backup.

Voice Services

Business Voice Lines

With **Comcast Business Voice**, you get a reliable business phone service with unlimited local and domestic long distance calling and advanced management features designed to help you stay agile – all included at no extra cost.

Mobility Features

With the increase in remote working, flexibility is crucial. **Comcast Business Voice Mobility** provides a host of easy-to-use features that link your business phone to your mobile devices, so you can stay connected.

Business VoiceEdge SelectTM

VoiceEdge Select is an all-in-one voice solution to help your small business make a big impression. It combines all the features you've come to expect in a VoIP service with business-grade phones, a mobile app, and advanced features like Moveable Calls, Simultaneous Ring, Hunt Groups, and cloud-based phone updates.

Comcast Business VoiceEdge[®]

VoiceEdgeTM is a hosted, cloud-based, scalable VoIP solution that fuels agility so you can focus on customer satisfaction. Enable workplace flexibility with a mobility app, enhance user experience with an included desktop application and web portal, and simplify desktop sharing and conference calling.

Comcast Business Mobile*

Comcast Business Internet subscribers are eligible for **Comcast Business Mobile**, run on the most reliable network in the nation¹ with 5G included for no additional charge with all data options. No line activation fees, the ability to mix and match Unlimited and By the Gig data options on the same account, and access to millions of secure WiFi hotspots nationwide.

PRI Trunks

Comcast Business PRI Trunks offer a dedicated physical connection from your on-premise equipment to the Comcast network – one of the nation's largest IP backbones. Get the high quality, flexible features you need to provide a seamless communication experience for your employees and customers.

SIP Trunks

Comcast Business SIP Trunks offer an ideal way to take advantage of the latest VoIP technologies and benefits, including business continuity features to help ensure you don't miss a call even if disaster strikes.

Managed Services

Managed Router

On-premise routers leveraging advanced technologies from leading manufacturers, using Comcast Business provided equipment supporting a variety of services.

Managed Security*

Flexible services to help strengthen your security with Managed Firewall, Managed VPN, Managed Unified Threat Management and DDoS Detection.

Managed Connectivity*

Nationwide high-performance bandwidth connectivity that is reliable and cost effective.

Managed WiFi*

A custom designed, built, and fully managed WiFi solution for a high quality user experience and bandwidth allocation for managing traffic.

Cybersecurity Services

Comcast Business SecurityEdgeTM

SecurityEdge is a powerful cloud-based cybersecurity solution that helps protect devices connected to your network from cybersecurity attacks by thwarting threats.

It offers near real-time protection with automatic updates every 10 minutes, helps protect all Internet-connected devices, and has the ability to monitor blocked threat activity via a personalized dashboard and email reporting.

Video Services

Comcast Business SmartOfficeTM

Take traditional video monitoring to a new level with **Comcast Business SmartOfficeTM**. Benefits include crystal clear HD images, automatic cloud storage, instant mobile access, and professional installation.

X1 for Business

X1 for Business keeps your employees and customers entertained in your backoffice, waiting room or lobby. The Voice Remote lets your voice control the TV, while on-screen guide and search functionality make navigating channels easy.

* Comcast Business Cloud SolutionsSM, Comcast Business Mobile, Managed Security, Managed Connectivity, and Managed WiFi are available on a limited, individual case basis and may require Teaming.

THE COMCAST NETWORK

Our services operate across our advanced nationwide network. Comcast's network delivers reliable and scalable services for businesses of any size, powering an integrated product experience to our customers.

THE COMCAST BUSINESS COMMITMENT

We take your trust in us very seriously. We know that Comcast products and services can be critical to your business success and we stand by them. Our Comcast Business commitment includes 24/7 customer support via phone, web or onsite.

Stay seamlessly connected on our network.

“

“In order to allow a much greater number of employees to work from home, we required a significant increase in speed and bandwidth. Comcast Business was able to meet our needs in record time, allowing us to increase our work from home workforce practically overnight.”

- Amanda Hammel, **Chief Information Officer, Memorial Hermann Health System**

“SD-WAN has reduced the incidents of manual intervention required on our team for day-to-day network support. We now have more time to focus on strategic priorities, such as cybersecurity and driving long-term value in the core business.”

- Patrick Williams, **Chief Information Officer, Philadelphia Federal Credit Union (PFCU)**

”

With high-performance technology solutions from Comcast Business, you can stay agile, adapt quickly, and **Bounce Forward™**.
