

CyberPower®

STANDS OUT WITHOUT STICKING OUT

Short-Depth PFC Rackmount UPS System

ONLY
10.5"
DEEP

ENSURES UPTIME ALL THE TIME.
User friendly. Data friendly. Rack friendly.

The CyberPower CP1500PFCRM2U PFC Sinewave short-depth UPS system provides battery backup, surge protection, and EMI/RFI noise filtering for security systems, audio/visual equipment, networking and storage devices, and requiring an active PFC power source.

User-friendly, multifunction color LCD Control Panel quickly confirms status and alerts at-a-glance. PowerPanel software provides advanced control of the UPS, including scheduled shutdown/reboot and email notifications. It's backed by a three-year warranty and a connected equipment guarantee.

SHORT AND SWEET

Short-depth, lightweight PFC Sinewave Rackmount UPS

Shorter-Depth (10.5") fits easily into wall-mounted racks and tight spaces, allowing for more accessible cable management.

ONLY 10.5" DEEP

LIGHT WEIGHT

Sine Wave Output is clean with very low harmonic distortion making it the ideal waveform for running sensitive electronics using Active Power Factor Correction.

Remote UPS monitoring and management is possible with optional remote management card RMCARD205 via expansion card slot and PowerPanel® Software.

EMI/RFI Noise Filtering maintains clean power for connected equipment by filtering out electromagnetic and radio frequency interference to improve picture and sound quality.

Automatic Voltage Regulation stabilizes the incoming AC signal to maintain output power by controlling low voltages without resorting to battery power. This increases battery life and lessens the likelihood of data loss, memory freezes, and system crashes.

User-friendly Multifunction LCD Control Panel features easy-to-read color indicators provide alerts and quickly confirm status at-a-glance.

PowerPanel® software provides advanced UPS controls including scheduled shutdowns, event logging, alert notifications, and more.
