

5 Benefits to Look for in a Cloud Provider

Transparent, Flat-rate Pricing

Predictable, flat pricing across all data centers. What you see is what you pay for resources.

Volume Discounts to Support Growth

Volume discounts to support your growth without the need for long-term commitments.

A Team to Support You

24/7 support via phone, email, or chat with a team of skilled technicians for first-contact resolution, at no additional fee.

Cloud Primitives to Build On

Ensure the same cloud primitives are available across compute, storage, and networking solutions to support your workloads.

Global Presence

Better serve your customers around the globe with regional data centers to help you innovate at scale.

Deliver the best value to your customers with:

Partner-specific pricing to lower your operating costs

Flexibility to scale and grow the way your business and customers need

Dedicated Partner Development, Solutions Engineering, and Customer Success
