About Cylance

Cylance® is the first company to apply artificial intelligence, algorithmic science and machine learning to cybersecurity and improve the way companies, governments and end-users proactively solve the world's most difficult security problems. Using a breakthrough predictive analysis process, Cylance quickly and accurately identifies what is safe and what is a threat, not just what is in a blacklist or whitelist.

By coupling sophisticated machine learning and artificial intelligence with a unique understanding of an attacker's mentality, Cylance provides the technology and services to be truly predictive and preventive against advanced threats.

Cylance and the 2017 Gartner Magic Quadrant for Endpoint Protection Platforms

The 2017 Gartner Magic Quadrant for Endpoint Protection Platforms evaluates solutions that demonstrate a collection of security capabilities. In the 2017 report, Cylance achieves highest placement for its ability to execute in the visionary quadrant.

"Nothing honors us more greatly than reports of success from our customers," said Stuart McClure, president and CEO at Cylance Inc. "The reports of their ability to prevent even zero-day malware from executing with CylancePROTECT are highly influential as analysts work on reports like the Gartner Magic Quadrant. This ability to prevent cyberattacks in the real world is what motivates us not just to keep executing on our original vision, but to keep innovating year after year."

- **Cylance Execution:** Cylance is experiencing phenomenal momentum with 322% growth in 2015, and 607% growth in 2016.
- **Cylance Performance:** Cylance customers experience easy deployment and management, low performance impact, and high pre-execution detection rates against both known and unknown attacks.
- **Cylance Vision:** Our artificial intelligence and machine learning based technology has reinvented endpoint detection by providing predictive, preventative approaches that proactively stop attacks before they start.

Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. Gartner research publications consist of the opinions of Gartner's research organization and should not be construed as statements of fact. Gartner disclaims all warranties, expressed or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.

The Takeaway

We believe that Cylance's position as the highest placed vendor in the visionary quadrant for ability to execute in the 2017 Gartner EPP Magic Quadrant is reflected in our ever-growing community of users.

As the company pioneering the use of artificial intelligence to provide superior endpoint protection, we are proud to have been recognized for our ability to deliver threat prevention, operational efficiency, and help our customers lower costs.
