

Bitdefender[®] GravityZone[™]

ENDPOINT, NETWORK, CLOUD

END-TO-END BREACH AVOIDANCE

THE FIRST SECURITY PLATFORM THAT UNIFIES HARDENING, PREVENTION, DETECTION,
RESPONSE, AND SERVICES ACROSS ENDPOINT, NETWORK AND CLOUD

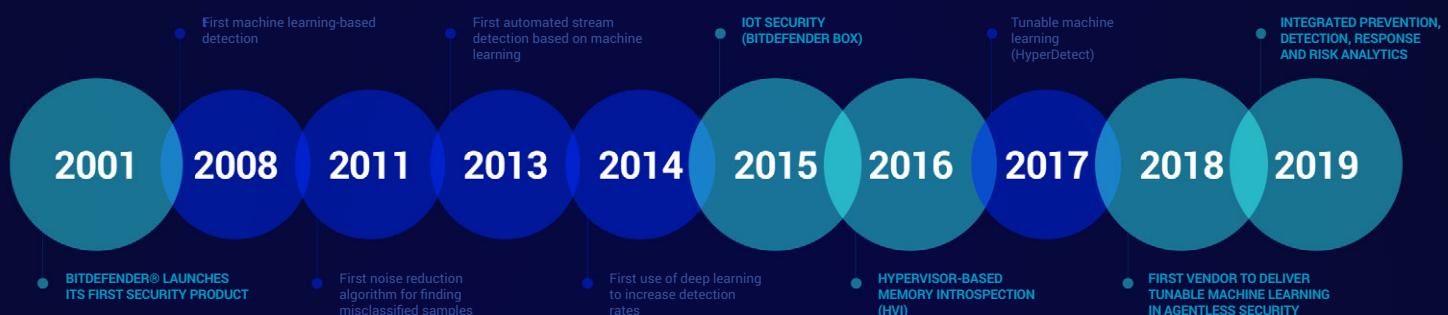

DRIVING INNOVATION IN THE SECURITY INDUSTRY **FOR OVER 18 YEARS**

At Bitdefender, a security vendor with innovation at its core, we believe in the power of IT modernization and the secure adoption of cloud, artificial intelligence and IoTs. For two decades, we have remained undeterred from our mission - to **support enterprises on their digital journey**, and equally ensure security does not hamper business needs.

Today, Bitdefender is an **undisputed world leader in its field**, with its technology used in 38% of all security solutions worldwide. Acknowledged by prestigious independent testing labs as the world's best prevention firm, Bitdefender is the provider of the first and only integrated security platform that unifies hardening, prevention, detection, response and services across endpoint, network and cloud.

UNDISPUTED INNOVATION LEADER **38% OF CYBER SECURITY PRODUCTS WORLDWIDE USE BITDEFENDER TECHNOLOGIES**

With **over 300 patent-based innovations in cybersecurity** and heavy machine-learning since 2008, Bitdefender technologies are integrated in over a third of security solutions worldwide.

Bitdefender proactively blocked WannaCry back in 2016 with a machine-learning algorithm developed in 2014

Consolidated Enterprise Security. The First Integrated Platform For Endpoint, Network & Cloud. GravityZone™, Bitdefender's end-to-end breach-avoidance platform, enables enterprises to consolidate multiple next-gen security layers under a single security platform and through a single agent. Unify prevention, detection, response and hardening against cyberthreats across the entire infrastructure stack, from traditional endpoints to cloud workloads and IoTs.

Unmatched Attack Prevention. Consistently Ranked #1. As confirmed by a long history of top rankings in major independent tests, including real-world scenarios and zero-day defenses, Bitdefender solutions consistently provide the world's most effective protection.

World's largest security delivery infrastructure. Bitdefender addresses hundreds of leading enterprises from small to very large in over 150 countries, processing over 34bn cyberthreat scans every day.

Bitdefender® GravityZone™

*Stop Breaches in Their Tracks With An Integrated Security Stack
Encompassing Prevention, Detection, Response, Hardening and Services
Under A Single Agent, Single Console*

By 2021, 3.5 million cybersecurity positions will go unfilled. More data is exposed to cyberthreats as companies move to cloud and start big data initiatives. Organizations are using too many tools from too many vendors, at high costs. IoT is offering more poorly guarded points of entry than ever. As security challenges grow, your solution needs to be straightforward.

END-TO-END BREACH AVOIDANCE

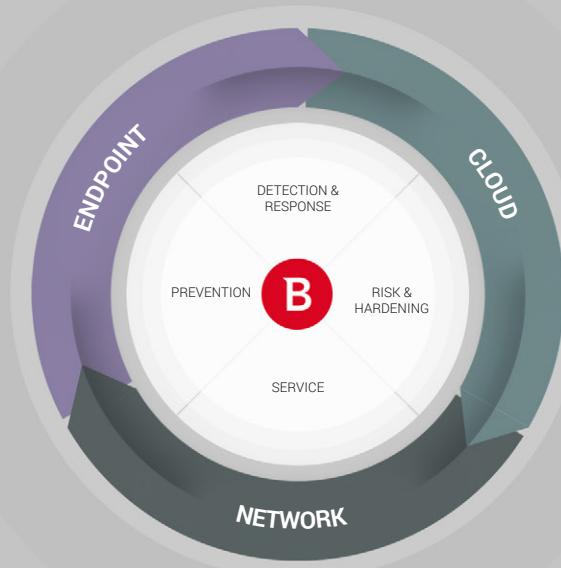

Our unified enterprise security platform was built from the ground up to address the complex set of security requirements enterprises face today. Bitdefender GravityZone™ extends well beyond halting sophisticated attacks. We provide the first true end-to-end breach avoidance approach that offers full 360-degree visibility across your endpoints, network, cloud, and IoTs. Meet the strictest security requirements through a consolidated, flexible and autonomous security stack.

Consolidate security with over 30 core prevention modules, including cloud-delivered antivirus, tunable machine learning, web threat protection, device control, application control, process monitoring and cloud sandbox.

Reduce attack surface through integrated endpoint hardening and risk analytics, and network traffic intelli-triage.

Minimize IoTs exposure risk through agentless detection and intuitive response through network traffic analytics.

Expand your internal security capabilities through managed hunting and forensics services provided by our 24/7 expert SOC.

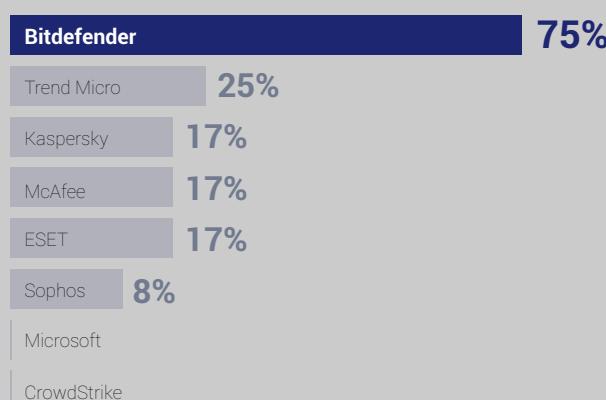

Accelerate time-to-detection with intuitive low-overhead EDR built into the endpoint prevention stack.

Increase visibility into the threat landscape with industry-leading threat intelligence.

Support digital transformation with a pro-VM, pro-Cloud security architecture and gain consistent defenses across all cloud environments.

Trusted by customers, analyst and independent reviewers

MOST #1 RANKINGS IN AV-COMPARATIVES TESTS
(REAL-WORLD PROTECTION, PERFORMANCE & MALWARE PROTECTION TESTS) JAN 2018 - SEP 2019

"Bitdefender has a large R&D team that focuses on threat research and that is a consistent top performer in malware protection tests" **Gartner**

"For the smaller end of the business, Bitdefender offers strong and coherent solutions. It would work well with larger companies too, and so allow the business to grow." **AV-Comparatives, Business Security Tests**

"Bitdefender allows us show Citrix to the world without the paralyzing fear of being hacked." **Citrix**

PROUDLY SERVING OUR CUSTOMERS

Bitdefender provides solutions and services for small business and medium enterprises, service providers and technology integrators. We take pride in the trust that enterprises such as **Mentor, Honeywell, Yamaha, Speedway, Esurance or Safe Systems** place in us.

Leader in Forrester's Inaugural Wave™ for Cloud Workload

Security NSS Labs "Recommended" Rating in the NSS Labs AEP Group Test

SC Media Industry Innovator Award for Hypervisor Introspection, 2nd Year in a Row

AV Comparatives #1 ranking in real world protection (from 317 test cases)

Best Network Security Vendor of the Year in the 8th edition of TahawulTech

DEDICATED TO OUR WORLDWIDE PARTNERS

A channel-exclusive vendor, Bitdefender is proud to share success with tens of thousands of resellers and distributors worldwide.

2019 CRN 5-Stars Partner Program for the 4th straight year. 2019 CRN Cloud Partner Program for the 5th year in a row. Recognized on CRN's Security 100 List

Winner of the Channel Innovation Awards 2019 - Cloud Partner Program of the Year

More MSP-integrated solutions than any other security vendor

3 Bitdefender Partner Programs - to enable all our partners (Resellers, Service Providers and Hybrid Partners) to sell Bitdefender solutions that match their expertise best

TRUSTED SECURITY AUTHORITY

Bitdefender is a proud technology alliance partner to major virtualization vendors, directly contributing to the development of secure ecosystems with **VMware, Nutanix, Citrix, Linux Foundation, Microsoft, AWS, and Pivotal**.

Through its leading forensics team, Bitdefender is also actively engaged in countering international cybercrime together with major law enforcement agencies such as FBI and Europol, in initiatives such as NoMoreRansom and TechAccord, as well as the takedown of black markets such as Hansa. Starting in 2019, Bitdefender is also a proudly appointed CVE Numbering Authority in MITRE Partnership.

UNDER THE SIGN OF THE WOLF

A trade of brilliance, data security is an industry where only the clearest view, sharpest mind and deepest insight can win – a game with zero margin of error. Our job is to win every single time, one thousand times out of one thousand, and one million times out of one million.

And we do. We outsmart the industry not only by having the clearest view, the sharpest mind and the deepest insight, but by staying one step ahead of everybody else, be they black hats or fellow security experts. The brilliance of our collective mind is like a **luminous Dragon-Wolf** on your side, powered by engineered intuition, created to guard against all dangers hidden in the arcane intricacies of the digital realm.

This brilliance is our superpower and we put it at the core of all our game-changing products and solutions.
